Edwards Metal Ceilings and Walls

Economical
Ornamental
Sanitary
Permanent
Fireproof
Moistureproof
Verminproof

Metal Ceilings are no longer a luxury—they may almost be said to be a necessity. Where formerly they were used almost exclusively in churches, stores, halls and other buildings, they are now also extensively used in private residences, factories, etc. Metal is the most sanitary and easiest to keep clean of any ceiling, is absolutely fire, moisture and verminproof, makes the room cool in summer and warm in winter and there is absolutely no danger from falling plaster.

Write for Large "Ceiling" Catalog "H" Showing Complete Line.
